Speaker Introduction :: Topic = Agile Methods

Name: Kevin Aguanno   (Keh'-vin   Ah-gwan'-no)

Introduction:

Kevin Aguanno is a certified project manager with over seventeen years of experience helping teams of people achieve great things.

Kevin's knowledge and competency as a project manager are certified by the Project Management Institute, and he is also a member of the Association for Project Management in the U.K. Winner of several international awards, he is active in research and writing on the topic of project management and agile development methods.

Kevin specializes in turning around troubled software development projects, and is known in the industry for this expertise. To bring about dramatic changes in these situations, Kevin has learned to change the rules of the game by incorporating agile development methods. Kevin speaks widely on the topic and has recently edited a great new book: *Managing Agile Projects.* The book contains chapters by many thought leaders of the agile development movement.

The book is available in bookstores and online. Contact Kevin directly for details and a discount.
